ASSOCIATION OF PROCESS INDUSTRY

Booth No: 4210

Connect • Engage • Grow

towards A Sustainable PProcess Industry

About Us

Established in 1997, the Association of Process Industry (“ASPRI”) is a membership-based trade association that represents the interests of more than 650 companies in Singapore’s Process Industry. Our membership comprises mainly Engineering Service Providers (ESPs) that support the Process Industry in the areas of plant construction and maintenance.

With a Vision to be a Visible and Credible Partner in the Process Industry, ASPRI’s mission is to Connect, Engage and Grow. Through strong tripartite Public – Private Partnership, ASPRI connects and engages various stakeholders including government and statutory boards, plant owners, professionals, Institutes of Higher Learning (“IHLs”) and affiliated Trade Associations and Chambers (“TACs”) to introduce and embrace technology / mechanisation for productivity improvement and business growth.

Visit www.aspri.com for more information.

ASSOCIATION OF MARINE & OFFSHORE ENERGY INDUSTRIES

Booth No: 4210

ASMI
Association of Singapore Marine
and Offshore Energy Industries

About Us

The Association of Singapore Marine & Offshore Energy Industries (ASMI) is a non-profit trade organisation set up in 1968 to promote the interests and advancement of the marine and offshore engineering industry in Singapore. It is the bona fide trade body for the promotion of the ship repair, shipbuilding, rigbuilding and offshore engineering sector in Singapore.

ASMI represents a wide cross-section of companies in the business of ship repair, ship conversion, shipbuilding, rigbuilding and offshore engineering. Its membership comprises shipyards, manufacturers and suppliers of marine and offshore equipment, components and services. ASMI members also include marine and offshore engineering companies, marine consultants and contractors as well as others whose business activities are directly related to the industry.

The Association plays an important role in unifying industry players towards shared objectives as well as in directing industry resources towards achieving common goals. ASMI has a membership strength of over 270 corporate members.

Visit www.asmi.com for more information.

DFINITI TECHNOLOGIES PTE LTD

Booth No: 4209

About Us

DFINITI Technologies, based in Singapore, specializes in designing and manufacturing comprehensive process heating equipment and systems tailored for various industries, including oil and gas, offshore and marine, petrochemical, and refining.

We offer both direct and indirect process heaters, which can be custom-engineered or built to meet industrial standards. Our extensive product range includes ATEX/IECEX certified Electric Process Heaters, Bath Heaters, Space Heaters, and more, making us a one-stop shop for all your heating needs.

Our manufacturing facility, established in Malaysia, operates as a Licensed Manufacturing Warehouse (LMW) and holds ASEAN Trade in Goods Agreement (ATIGA) accreditation. These credentials allow us to benefit from customs duty exemptions on imported components and exported finished goods.

With over 15 years of expertise in Electric Process Heating, DFINITI is committed to delivering high-quality, compliant products and dependable services worldwide. To better serve our global clientele, we have representatives not only in Asia, Europe, and Middle East etc. As we expand and serve a broader range of industries, our goal is to provide localized support and a tailored experience for customers around the globe.

EXCEL MARCO INDUSTRIAL SYSTEMS PTE LTD

Booth No: 4204

About Us

Founded in 2000, Excel Marco specializes in turnkey Integrated Control & Safety Systems integration. With over 20 years of experience, we've served leading offshore energy sector clients.

Key Milestones:

- Installed systems on the world's deepest FPSO and innovative Disconnectable Turret control system
- Contributed to net-zero carbon emission efforts with Flareless FPSO and fast-track Multi-Purpose Floaters (MPF)
- Supplied Vessel Management Systems (VMS) to over 50% of global offshore drillings (Jackups and Semisubmersibles)

Expertise:

- Automation and control solutions
- Safety assessment, design, engineering, programming, and integration
- On-site commissioning, upgrading, training, and maintenance
- Industrial 4.0 and digitalization support
- OT cybersecurity services (certified professionals)

Our Success:

We attribute our achievements to our valued customers, partners, and dedicated team. Their support has enabled us to become a trusted automation and control solutions provider.

MASTERSCAN ENGINEERING
INSPECTION WITH INTEGRITY

About Us

Founded in 2005, Masterscan Engineering specializes in Non-Destructive Testing (NDT) services, offering both Conventional and Advanced solutions. Our focus is on providing dependable, cost-effective solutions while upholding the highest technical standards and integrity.

We have embraced Industry 4.0 technologies to enhance the capabilities of our NDT services. These include UAV inspections, Digital Twin solutions, and Advanced Data Analytics, which provide greater accuracy and real-time insights, ultimately improving the efficiency and effectiveness of inspections.

Our dedicated Research and Development team plays a key role by exploring the integration of Artificial Intelligence (AI) and Robotics into our services. We are continually developing advanced systems, such as various Robotic Crawlers and Intelligent Inspection Tools, to ensure safer, more reliable, and precise outcomes for our clients.

While we remain committed to staying ahead of technological advancements, we ensure our clients benefit from cutting-edge solutions without compromising on quality or professionalism.
